Research Letters
Nuclear medicine patients do not have higher mutant frequencies after exposure to thallium-201
by M. Bachand, A.M. Seifert and K. Messing (Canada) 1
Influence of anoxia and respiratory deficiency on the genotoxicity of some direct-acting alkylating agents in yeast
by V.V. Deorukhakar and M.S.S. Murthy (India) 7
Sister-chromatid exchange analysis in vivo using different 5-bromo-2′-deoxyuridine-labeling systems
by E. Madrigal-Bujaidar and M.A. Sánchez-Sánchez (Mexico) 15
Replication intermediates as substrates for DNA rearrangements
by R.B. Painter and L.N. Kapp (U.S.A.) 21
Antimutagenicity studies of chlorophyllin using the Salmonella arabinose-resistant assay system
by J.R. Warner, J. Nath, T.-M. Ong (U.S.A.) 25
Role of DNA polymerase α and δ in radiation clastogenesis
by M.A Bender, R.C. Moore and B.E. Pyatt (U.S.A. and Australia) 31
A case of spontaneous trisomy in the spermatocytes of *Microtus arvalis*
by P.M. Borodin (U.S.S.R.) 37
Effect of vitamins C and E on toxicity and mutagenicity of hexavalent chromium in rat and guinea pig
by D. Chorvatovičová, E. Ginter, A. Košinová and Z. Zloch (Czechoslovakia) 41
Study of reproductive function in persons occupationally exposed to 2,4-dichlorophenoxyacetic acid (2,4-D)
by D. Lerda and R. Rizzi (Argentina and Italy) 47
Characterization of the in vitro unscheduled DNA synthesis assay in primary lung cells of the rat
by W.-Z. Whong, J.D. Stewart and T. Ong (U.S.A.) 51
The influence of maternal age on radiation-induced chromosome aberrations in mouse oocytes
by C. Tease and G. Fisher (Great Britain) 57
Constant denaturant gel electrophoresis, a modification of denaturing gradient gel electrophoresis, in mutation detection
by E. Hovig, B. Smith-Sørensen, A. Brøgger and A.-L. Børresen (Norway) 63
Genotoxicity and cell proliferative activity of omeprazole in rat stomach mucosa
by C. Furihata, K. Hirose and T. Matsushima (Japan) 73
Corrigendum 77
Research Letters
In vivo benzo[*a*]pyrene diol epoxide-induced alkali-labile sites are not apurinic sites
by M.F. Moran and K. Ebisuzaki (Canada) 79
In vitro genotoxicity of dimethyl terephthalate
by S. Monarca, B.L. Pool-Zobel, R. Rizzi, P. Klein, P. Schmezer, E. Piatti, R. Pasquini, R. De Fusco and D. Biscardi (Italy and F.R.G.) 85
Effects of selenium deficiency on sperm morphology and spermatocyte chromosomes in mice
by T. Watanabe and A. Endo (Japan) 93
Induction of specific-locus mutations in male germ cells of the mouse by acrylamide monomer
by L.B. Russell, P.R. Hunsicker, N.L.A. Cacheiro and W.M. Generoso (U.S.A.) 101
Inhibitory effects of coffee on the genotoxicity of carcinogens in mice
by S.K. Abraham (India) 109
Uric acid as an inhibitor of cyclophosphamide-induced micronuclei in mice
by A.M. Al-Bekairi, S. Qureshi, M.A. Chaudhry and A.H. Shah (Saudi Arabia) 115
Use of the cytokinesis-block micronucleus method in mouse splenocytes
by L. Ren, J. Yang and H. Zhang (People's Republic of China) 119

0165-7992/91/$03.50 © 1991 Elsevier Science Publishers B.V. (Biomedical Division)

A genetic study of human interferon-α-induced repair of DNA damage in hepatitis B patients
by P. Wang, S. Cong, X. Dong, Z. Chen and C. Ma (People's Republic of China) 125
Enhanced liver metabolism of mutagens and carcinogens in fish living in polluted seawater
by M. Bagnasco, A. Camoirano, S. De Flora, F. Melodia and A. Arillo (Italy) 129
Insusceptibility of Cockayne syndrome-derived lymphocytes to plasminogen activator-like protease induction by ultraviolet rays and its abolition by interferon
by K. Sugita, N. Suzuki, E. Isogai and H. Niimi (Japan) 139
Starvation as an inducer of error-free DNA repair in *Escherichia coli*
by P.S. Fitt and N. Sharma (Canada) 145
Dose-dependent increase in repair of 1-β-D-arabinofuranosylcytosine-detectable DNA lesions in UV-treated xeroderma pigmentosum (group A) fibroblasts
by R. Mirzayans and M.C. Paterson (Canada) 151
Effect of pH on the activity and stability of clastogens in the in vitro chromosomal aberration test with Chinese hamster ovary K1 cells
by T. Morita, T. Nagaki, I. Fukuda and K. Okumura (Japan) 159
Role of bacterial nitroreductase and *O*-acetyltransferase in urine mutagenicity assay of rats exposed to 2,4,6-trinitrotoluene (TNT)
by P. Einistö (Finland) 167
Investigation of soy sauce treated with nitrite in the chromosomal aberration test in vitro and the micronucleus in vivo
by A. Nagahara, K. Ohshita and S. Nasuno (Japan) 171
Induction of chromosomal aberrations by restriction endonucleases encapsulated in liposomes
by F. Mixich (Romania) 177
Identification and cloning of a *umu* locus in *Streptomyces coelicolor* A3(2)
by F. Misuraca, D. Rampolla and S. Grimaudo (Italy) 183
Inhibition by diacylmethane derivatives of mutagenicity in *Salmonella typhimurium* and tRNA-binding of chemical carcinogens
by C.Y. Wang, M.-S. Lee and K. Zukowski (U.S.A.) 189
Adsorption of a hydrophobic mutagen to five contrasting dietary fiber preparations
by A.M. Roberton, L.R. Ferguson, H.J. Hollands and P.J. Harris (New Zealand) 195
Structural determination of a directly mutagenic amino-nitrobiphenyl as the S9 metabolite of 2,4,2′,4′-tetranitrobiphenyl in *Salmonella typhimurium* TA98
by T. Hirayama, K. Iguchi, S. Yoshida, Y. Yamanaka and T. Watanabe (Japan) 203
The effect on lymphocyte chromosomes of additional radiation burden due to fallout in Salzburg (Austria) from the Chernobyl accident
by J. Pohl-Rüling, O. Haas, A. Brogger, G. Obe, H. Lettner, F. Daschil, C. Atzmüller, D. Lloyd, R. Kubiak and A.T. Natarajan (Austria, Norway, F.R.G., Great Britain, Poland and The Netherlands) 209
Recovery from exposure to DNA-damaging chemicals in radiation-resistant insect cells
by T.M. Koval (U.S.A.) 219
Variation in the mutagenic potential of acridines in *Salmonella typhimurium*, with stage of the culture
by L.R. Ferguson, H. Pogai and P.M. Turner (New Zealand) 227
Genotoxicity of pyrene oxide and 1-nitropyrene oxides in hepatocyte primary culture/DNA repair test
by H. Mori, S. Sugie, A. Okumura, A. Hara, T. Kinouchi, K. Kataoka and Y. Ohnishi (Japan) 233
The possible role of probiotics as dietary antimutagens
by H.W. Renner and R. Münzner (F.R.G.) 239
Activity of urethane in rat and mouse micronucleus tests after oral administration
by C. Westmoreland, M. Plumstead and D. Gatehouse (Great Britain) 247
The genotoxicity of nitrilotriacetic acid (NTA) in a somatic mutation and recombination test in *Drosophila melanogaster*
by M. Zordan, U. Graf, D. Singer, C. Beltrame, L.D. Valle, M. Osti, R. Costa and A.G. Levis (Italy and Switzerland) 253
Mitotic spindle damage induced by 2-chlorobenzylidene malonitrile (CS) in V79 Chinese hamster cells examined by differential staining of the spindle apparatus and chromosomes
by K. Salassidis, E. Schmid and M. Bauchinger (F.R.G.) 263
Absence of mutagenic action of 5β-cholan-24-oic acid derivatives in the bacterial fluctuation and standard Ames tests
by Y. Mori, H. Nii, A. Masuda, K. Mizumoto, Y. Konishi, M. Une and T. Hoshita (Japan) 267
